Average	45.3	60.4	24

^bLSD (P<0.30) 3.8

^aA test weight for the variety Freeman could not be collected due to insufficient grain in the plots.

^bIf the difference between two variety yields equals or exceeds the LSD value then they are significantly different with less than 30% probability that the difference is due to random

Harvest date: July 18 & 20, 2014

Planting date: September 24, 2013

Cooperator: Randy Wilks
