Average	33.3	59.8	19

^aLSD (P<0.30) 3.8

^aIf the difference between two variety yields equals or exceeds the LSD value then they are significantly different with less than 30% probability that the difference is due to random error.

Harvest date: July 8, 2014
 Planting date: October 2, 2013
 Cooperator: Plainsman Research Center
